HTML 100%

CSS 100%

Wordpress 90%

PHP 80%

Javascript+jQuery 80%

Wordpress 90%

Slicing 100%

Photoshop 85%

I am a professional web developer. My expertise is in the field of front-end and beautifying the website interface is my style. Not only that, slicing graphic designs into HTML, CSS, Javascript, and jQuery codes is another expertise that helps me in beautifying a website's interface. There are many past projects I've done so far, especially WordPress-based websites. I am also a full stack WordPress developer, working as a freelancer or full timer.
